

Construction Excellence Awards 2018

Sponsorship Information

Background to the Awards

The Construction Excellence Awards were launched in 1999. Since then they have become the premier event in the Northern Ireland construction calendar.

The Awards provide an opportunity to recognise the achievements of the local construction industry and to publicise the substantial contribution that our industry makes to the economy and society in Northern Ireland.

Success at the Awards has become the benchmark by which the industry judges itself. Each year the finalists and members of the industry gather at the gala evening, held at the **5 star Culloden Estate**, to celebrate the success of the past year. The awards evening is one of the most noted and spectacular events in the construction calendar attracting leading figures from all sections of the industry.

The 2017 Awards were the most successful yet with over 100 entries received. The gala dinner was attended by **420** people from the construction industry.

Structure of the Awards

The Construction Excellence Awards 2018 will be split into thirteen categories spread across five sections as follows:

Housing	Private Housing Award
	Social Housing Award
General Construction	Commercial Construction Award
	Restoration Award
	Social/Community Construction Award
	Fit-Out Award
Infrastructure	Health Infrastructure Award
	Education Infrastructure Award
	Transport & Utilities Infrastructure Award
Quality Performance	Training Award
	Health & Safety Award
	Environmental Sustainability Award
GB & Republic of Ireland Construction Award	

There will be a maximum of four finalists short-listed for each award category. This short-list will be announced in June 2018 and a showcase event will be held for short-listed finalists in September 2018.

Along with the 13 main categories there are 2 judges' special awards, an award to recognise **Excellence in Partnering** and an **Overall Award** for the most outstanding entry. The shortlist for the most outstanding entry will be made up of one winner from Housing, General Construction, Infrastructure and Quality Performance.
